Investment Objective & Strategy

Odyssean Investment Trust PLC (“OIT”) is a closed-ended investment company that seeks to generate attractive total returns principally through capital growth over a medium term.

OIT’s investment strategy is to invest in a concentrated portfolio of well researched quoted UK smaller companies, typically too small for inclusion in the FTSE 250. These companies will be selected through a rigorous process, and all have potential to generate improved returns to their shareholders.

Constructive corporate engagement is a key part of Odyssean’s approach, drawing on the investment team’s lengthy and successful track record in public and private equity investing.
