Investment Objective & Strategy

Odyssean Investment Trust PLC (“OIT” or the “Company”) is a closed-ended investment company that seeks to generate attractive total returns principally through capital growth over a medium term.

OIT’s investment strategy is to invest in a concentrated portfolio of well researched quoted UK smaller companies, typically too small for inclusion in the FTSE 250. These companies will be selected through a rigorous process, and all have potential to generate improved returns to their shareholders. OIT is actively managed.

Constructive corporate engagement is a key part of Odyssean’s approach, drawing on the investment team’s lengthy and successful track record in public and private equity investing.

Experienced Fund Management Team

Stuart and Ed have more than 40 years' combined investment experience in smaller companies.

Stuart was previously lead manager of GVQIM's strategic investment funds which saw him drive the turnaround in performance and discount of Strategic Equity Capital plc, a UK listed investment trust.

Ed was a principal in the European TMT investment team at HgCapital where he was responsible for sourcing, evaluating and managing investments in the TMT sector in UK, Europe & USA.

Discount Control

Shareholders were given an exit opportunity at NAV less costs in the seventh year following admission (June 2024). Such an opportunity will be given every seventh year thereafter.

The Directors have adopted a discount management policy to establish and support an improved rating in the Company's shares through the use of buybacks. Buyback authority will be sought on an annual basis. In addition, 50% of the profit from takeovers is to be used to buy back shares if the average discount exceeds 5% for over 60 days.

How to Invest

The Company's shares are traded openly on the London Stock Exchange and can be purchased through a stock broker, platform or other financial intermediary.

Equiniti provide online, telephone and postal share dealing services. Full details, including rates and charges can be found at www.shareview.co.uk.

The telephone number for their share dealing service is 03456 037 037. Further information on the Company is available at www.oitplc.com.

Target Market

The Company is suitable for investors seeking a fund that aims to deliver capital growth over a long-term investment horizon (at least 5 years), who are prepared to bear capital losses and have at least basic market knowledge and experience. Investors should understand the risks involved, including the risk of losing all capital invested.

The Company may not be suitable for investors who are concerned about short-term volatility and performance, seeking a regular source of income or who may be investing for less than 5 years. The Company does not offer capital protection.

----------------	--------------

¹Expressed as a percentage of total costs divided by average daily net assets for the year ended 31 March 2025. The Ongoing Charges Figure (OCF) is the overall cost shown as a percentage of the value of the assets of the Company. It is made up of the AMC and other charges (excluding performance fees). It does not include the cost of buying and selling investments within the Company. The OCF can help you compare the annual operating expenses of different investment companies. **It is not an additional cost paid by the shareholders of the Company.**

Key Risk Considerations

- Investment in OIT may not be appropriate for investors who plan to withdraw their money within 5 years.
- Shares of OIT may trade either below (at a discount) or above (at a premium) the Net Asset Value (“NAV”) for a variety of reasons. On a sale you could realise less than the NAV and less than you initially invested.
- OIT’s portfolio is focused towards small and mid-sized companies, which may involve a higher degree of risk than larger sized companies. The shares of smaller companies may be less liquid and more volatile than those of larger companies.
- OIT holds a concentrated portfolio (no more than 25 companies). This means that the portfolio carries a higher degree of stock-specific risk than a more diversified portfolio and a material decline in the value of one investment in the portfolio could have a significant impact on the overall value of the portfolio and the share price of OIT.
- OIT’s exposure to a single market and a small number of sectors may increase risk.
- There is no guarantee that the investment objective of OIT will be achieved.

Important Information

An investment trust should be considered only as part of a balanced portfolio. To ensure you understand whether this product is suitable against your individual needs and risk tolerance, please refer to the Company’s prospectus, Annual Report and the Key Information Document, available at www.oitplc.com, before making any final investment decisions. If you are in any doubt as to the suitability of OIT for your investment needs, we recommend you seek independent professional advice prior to investing.

This factsheet is for information purposes only and does not constitute an offer, solicitation or investment recommendation for the purchase or sale of any securities or financial instruments mentioned and should not be relied on by any person for making an investment decision. Nothing in this factsheet should be construed as investment advice and is therefore not a recommendation to buy or sell shares in OIT.

The Company is a small registered UK AIFM and so it is not subject to UK sustainable investment labelling and disclosure requirements. Whilst also out-of-scope of the anti-greenwashing rules, the Company will apply them. For more information on the UK sustainable investment labelling and disclosure requirements, please check the FCA webpage <https://www.fca.org.uk/consumers/sustainable-investment-labels-greenwashing>
